

AXR[®] 600

SUPER PREMIUM - RESIN FOR CORNER EDGE & NEAR EDGE

• **EXCELLENT RESISTANCE TO SMUDGE AND SCRATCH**

• **EXCELLENT PRINTING QUALITY, SENSITIVITY AND RECEPTOR MULTI-COMPATIBILITY**

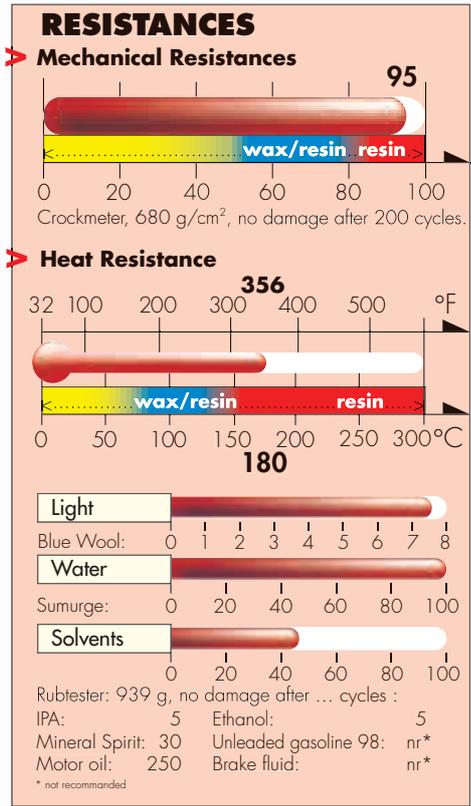

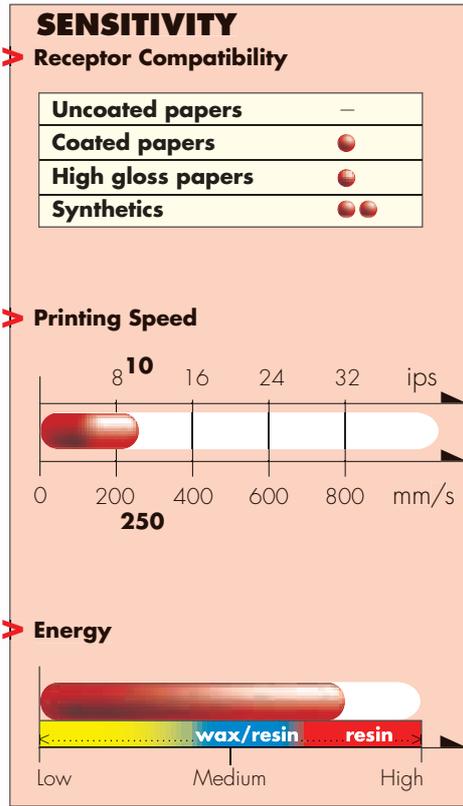

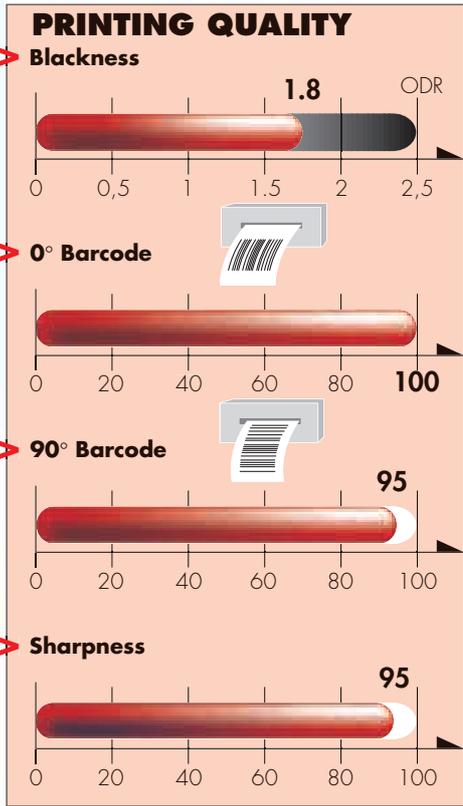

• **GOOD RESISTANCE TO HIGH TEMPERATURE**

AXR[®] 600 is dedicated to applications requiring perfect print quality and excellent mechanical resistance. The ink provides an excellent printing quality of all types of barcodes, very small text, large characters, and logos, at a blackness above 1.8 (ODR).

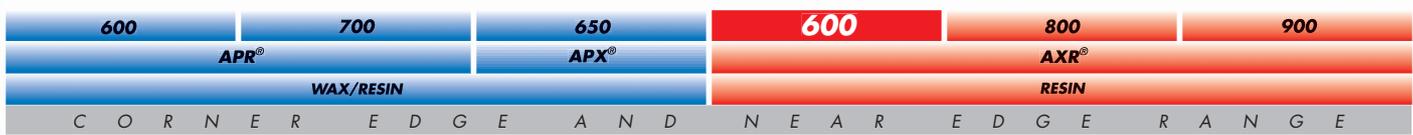

The ribbon structure allows printing on many kinds of synthetics (PVC, PET, PE, PP), and on various matt and glossy coated papers. The printed image offers an excellent smudge and scratch resistance, and good heat resistance, up to 180°C (356°F).

Those characteristics remain at speeds up to 250 mm/s (10 ips), and with 200, 300 and 600 DPI printheads, making this ribbon perfectly adapted to the labeling market, and allowing its use in the flexible packaging printing market.

AXR[®] 600 features Armor outstanding backcoat technology ensuring excellent printhead protection, no clogging and prevents static build up.

Evaluation of observed performances of the ribbon with adapted printer, settings and receptors (Armor procedure).
